

INFORMATION FOR THE COMMUNITY

PROFERTIL informs its neighbors

Ingeniero White, February 24 The Company informs that, in the early afternoon of today, it has started the maneuvers to take out of service its production plants of the complex, in order to conduct maintenance tasks, estimating to start again the start-up process in the next 48 hours.

During the shutdown period there will be a greater luminosity in the torches and, eventually and sporadically, an increase in the usual sound level.

The municipal, provincial and national authorities are duly informed as usual in these maneuvers.

The contact channels for any concerns that may arise are the usual ones and our social media (@profertilAgro).
