

Educate to transform Program

The Educate to Transform 2022 edition program has begun

Bahia Blanca, June 9th. The scholarship program "Educate to Transform" seeks to accompany young people from the Technical High School N°1 "Crucero Ara General Belgrano", located in the town of Ingeniero White, where our production plant operates, in the process of completing their high school studies.

Between 2020 and 2021, 24 students benefited from this program. In this new edition, **30 students** from the last year of E.E.S.T N°1 will receive financial aid to finish their studies and the accompaniment of professionals from the company, as part of the commitment that Profertil assumes with the community.

Educate to Transform is one of the initiatives developed by Profertil to promote the link between business, neighboring society and academia. The program is linked to the objectives of the 2030 Agenda for Sustainable Development, proposed by the United Nations. Specifically, with this action, the company seeks to contribute to the goals of Quality Education and Gender Equality.

Among the main objectives of the program are to stimulate academic excellence and the fulfillment of the study plan; to recognize academic development; and to strengthen the transition between high school and professional careers.

About Profertil

It is a company devoted to the production of the fertilizers needed to optimize crop yields in a sustainable manner. Integrated in equal parts by YPF and Nutrien Inc, it has been operating its production plant in the port of Ingeniero White for 21 years. There, it produces 1,320,000 tons of granulated urea annually, the main nitrogen fertilizer for the soil. In addition, it sells other fertilizers and prepares tailor-made mixtures to provide each territory and crop with the nutrition required. It has administrative offices in Buenos Aires, logistics terminals in Necochea, San Nicolás and Puerto General San Martín (Santa Fe). It has 362 direct employees, 1,500 indirect employees and more than 850 active suppliers.
