

At the International Fertilizer Association annual meeting  
**Profertil highlights the role of Argentina in the world fertilizer industry**

**Bahía Blanca, May 25, 2023.-** As a leader in fertilizer production in Argentina, Profertil actively participated in **the annual meeting of the International Fertilizer Association (IFA) in Prague, Czech Republic.** During the event, **the company highlighted its commitment to food security, sustainability, and innovation in the fertilizer industry.**

Under the theme **"Where Food and Energy Markets Meet,"** the IFA annual meeting brought together industry leaders and experts to address key topics in the field of agricultural production and fertilizers. IFA is the most important global institution in the field of fertilizers and brings together key players in the sector. Profertil is an active member of the association, whose CEO, Alzbeta Klein, visited the Ingeniero White production plant a few months ago.

During the event in Prague, Profertil's general manager, Marcos Sabelli, said: "We are proud to represent Argentina in this international meeting. ***At Profertil, we work tirelessly to contribute to the sustainability of agricultural production systems and ensure food availability.***"

Looking at the local production from an international perspective, Sabelli stated, *"The annual production of 1.3 million tons of urea contributed by Profertil to the country plays an essential role in enabling Argentine producers to achieve high yields in their crops. **It is a differential that our country possesses and consolidates Argentina's path as a relevant player in global food production.**"*

The presentations at the IFA annual meeting revolved around production and energy, but also addressed the necessary steps to reach **the challenging objectives ahead for the industry.** Thus, topics of gender diversity and biodiversity care were covered, among many other conversations. Profertil's participation in the IFA annual meeting was highlighted, with Sabelli as part of the Association's board and the presence of Mario Suffriti, the company's commercial manager.
