

University internships at Profertil

Bahía Blanca, February 7, 2023. From Tuesday, February 7 to February 28, the registration period for the internship program "Experiencia UP", Universitarios en Profertil, 2023 edition, is open. This is a space for personal and professional learning for advanced students from UNS y UTN Bahía Blanca.

This time it covers the careers of Electrical Engineer, Electronic Engineer, Mechanical Engineer (these three careers of UNS and UTN BB), and also Chemical Engineer, Industrial Engineer, University Graduate in Chemistry, Public Accountant and University Graduate in Business Management (these last ones from UNS).

Experiencia UP lasts one year, and the interns will work in the Industrial Operations and Administration and Finance departments of Profertil's production plant in Ingeniero White. They are scheduled to start in May, with a workload of 20 hours per week.

This program is central to the link that Profertil has been promoting and developing for years with local academic institutions. It allows advanced students to carry out internships in a challenging and motivating environment, within a top-notch work team. As part of its adherence to the United Nations Global Compact, Profertil contributes with this program to SDG 17, "Partnerships for achieving the goals", as well as to SDG 5, "Gender equality".

Those who wish to apply must access the company's job platform at profertil.hiringroom.com/jobs. There they will find all the requirements to access the internship. The closing date for the call for applications is February 28.

About Profertil

It is a company dedicated to the production of fertilizers necessary to optimize crop yields in a sustainable way. Integrated in equal parts by YPF and Nutrien Inc, it has had its production plant in the port of Ingeniero White for 22 years. There it produces 1,320,000 tons of granulated urea, the main nitrogen fertilizer for the soil, annually. In addition, it commercializes other fertilizers and makes tailor-made blends, in order to provide each territory and crop with the nutrition it requires. It has administrative offices in Bahía Blanca and Buenos Aires, as well as logistics terminals in Bahía Blanca, Necochea, San Nicolás and Puerto General San Martín (Santa Fe). It has 362 direct employees, 1,500 indirect employees and more than 850 active suppliers.
